Office Hours

Mon 10-11:30 and by appt

Course Objectives and Structure

The primary objective of this seminar is to provide a framework that will lead to the successful completion and defense of your honors thesis. Therefore, the majority of the class time will be spent directly on this objective. You will peer-edit portions of your written thesis with your classmates. You will also perform practice presentations of portions of your thesis presentation. Because a primary goal of our seminar is to provide a setting in which students give and receive feedback on their research and their written and verbal presentations of that research, *attendance is mandatory!*
